Professional Development Insights from Technology First Members

Using Libraries for Lifelong Learning

Research indicates that people are more likely to use public libraries during childhood, early parenthood, and retirement. Hopefully, some of you have fond memories of attending story time as a child or parent! But what can libraries offer you during the career stage of your life?

Just Adjust

Tenacity is when we try something, but if it doesn't work, we try different ways to achieve the same goal. Here's why and how we should develop tenacity on the job.
